

James Dinh

CSE 163

Arms Sales Overseas

Effort

My contribution to the project is listed below:

- Creation of the bar chart
 - Making a sortable copy of the data was a bit challenging as the csv is an object with multiple keys
- Created the buttons to change the decade shown in the bar chart
 - This functionality was portable and the buttons were changed to a slider
- Added color coding to the bar chart to match regions
- Added functionality to the bar chart to change accordingly to the slider

Team Contribution

Everyone did their part and I don't feel like anyone was lacking in any sort of way in the sense of workload.
